

## Application

Lazio-oil SAE 40 is a high-performance lubricant designed for both naturally aspirated and supercharged diesel engines operating under demanding conditions, or those prone to excessive deposits and wear due to engine design or fuel type.

It offers excellent resistance to high-temperature oxidation and boasts strong detergency properties, effectively preventing deposit formation and keeping engines clean.

The oil also provides reliable protection against corrosion caused by moisture and the acids produced during fuel combustion. Its advanced antiwear characteristics ensure the longevity of moving parts, minimizing the need for frequent engine servicing and overhauls.

## Specifications

- **API CI-4/SL**
- MIL-L-2104 D
- MIL-L-46152 C

## Characteristics

Properties	Method	Unit	Typical
Density at 15°C	ASTM D 4052	kg/m <sup>3</sup>	895
Viscosity at 100°C	ASTM D 445	mm <sup>2</sup> /s	14.4
Viscosity Index	ASTM D 2270	-	105
Flash point COC	ASTM D 92	°C	230
Pour point	ASTM D 5950	°C	-18
