

## Application

Lazio-Oil 5W-20 is a synthetic technology lubricant specially formulated to meet the demands of Ford vehicles equipped with EcoBoost petrol engines, in accordance with the manufacturer's recommended maintenance schedules. It is also suitable for other petrol engines requiring oils that conform to Ford specifications, including WSS-M2C913-B, WSS-M2C913-C, and WSS-M2C925-B.

The advanced formulation of Lazio-Oil 5W-20 offers superior engine protection by minimizing wear on mechanical components and reducing deposit formation. This ensures optimal engine performance throughout its lifespan. Its high-flow characteristics enhance lubrication, reducing friction and improving fuel efficiency, while also lowering CO2 emissions. Additionally, the oil's low volatility and high thermal stability significantly reduce oil consumption, promoting longer-lasting engine health.
